

Word – "When the Structures Crumble"

P#04

Re: Fall of Mystery Babylon

February 27, 1995

On February 27, 1995, I heard a very clear word: "**When the structures crumble, testify of My kingdom.**"

This word came during a time (1995) of relative peace and prosperity in the US, so there was nothing significant occurring in that day.

What structures were going to crumble? Were they physical structures or something else, such as governments or man-made systems?

It wasn't until the year 2001 that I began to sense a change was coming to the world that might indicate the first real manifestation of this word. I recall exhorting an elderly Jewish woman, a survivor of the Holocaust, that great change was coming, and that it was time to look to God. This sensing began early in the summer of 2001 and intensified as September approached. In my spirit, I knew something was coming.

It was no coincidence that early in the morning—6 years, 6 months, 16 days after receiving this word—my heart was deeply burdened to begin writing on the matter of watching, with specific reference to the return of our beloved Lord Jesus and the manifestation of His kingdom on earth.

As I was beginning to write, my phone rang; it was from a friend who told me that I needed to immediately turn on the television. I did, and a short time later, I, along with millions, watched the first of the twin towers of the **World Trade Center** crumble to the ground, followed within the hour by the fall of the second tower. The structures were crumbling before our very eyes in real time.

When I saw the two structures crumble, I knew that the spirit of God had given me a witness of the burden that had been placed upon my heart. There were two structures, which is a witness.

What is the witness? "**Yet once more I will shake not only the earth, but also the heaven.**" Why? Because **we receive a kingdom which cannot be shaken** (Hebrews 12:26, 28)!

What must be done? Testify of **the kingdom of our Lord and of His Christ** (Revelation 11:15)!

Obviously, the shaking and crumbling of structures of all kinds, manmade and natural, has continued with increased intensity as God has begun to judge Mystery Babylon that has corrupted and enslaved the earth.

On September 18, 2008, the world saw its entire Babylonian financial system shaken, almost to the point of complete collapse. In spite of the efforts of central banks and government leaders, the system continues to crumble. One day, God's hammer will come down upon it and it will fall, never to rise again.

As if to add further confirmation to this word, exactly 15 years later, on February 27, 2010, the **7th strongest recorded earthquake in history hit Chile**, and its structures literally crumbled to the ground.

More is to come!
